

JUNE 2014
VOLUME 52. ISSUE 6.

The Oxnard Gem & Mineral Society is a non-profit organization formed to increase our knowledge in geology, mineralogy and other such related fields in the earth sciences. We classify, cut, grind and polish rocks and minerals for our personal collections and to display at club shows. We learn from each other through club speakers, programs and monthly field trips. We co-operate with other clubs to encourage others to participate in our activity. The Oxnard Gem & Mineral Society is a member of the California Federation of Mineralogical Society and the American Federation of Mineralogical Society.

Next General Meeting Held: June 4th 7:30 PM
Pebble Pups: 6:00 to 6:45 PM

Facebook: www.facebook.com/OGMS.Excursions

Location: Oxnard Performing Arts Center
800 Hobson Way, (Thousand Oaks Room)

Email Address: oxnardgem@gmail.com

Membership Dues: Adults 18 and over, \$15 year.
Juniors, 12 to 17, \$2 year. Pebble Pups up to age
12, free with paid adult.

Web Address: www.oxnardgem.com

Mail: P. O. Box 246 Oxnard, CA 93032

Because OGMS is affiliated with the AFMS, our members observe the following AFMS principles:

- I will respect both private and public property and will do no collecting on privately owned land without permission from the owner.
- I will keep informed on all laws, regulations or rules governing collecting on public lands and will observe them.
- I will, to the best of my ability, ascertain the boundary lines of property on which I plan to collect.
- I will use no firearms or blasting material in collecting areas.
- I will cause no willful damage to property of any kind such as fences, signs, buildings, etc.
- I will leave all gates as found.
- I will build fires only in designated or safe places and will be certain they are completely extinguished before leaving the area.
- I will discard no burning material; matches, cigarettes, etc.
- I will fill all excavation holes which may be dangerous to livestock.
- I will not contaminate wells, creeks, or other water supplies.
- I will cause no willful damage to collecting material and will take home only what I can reasonably use.
- I will practice conservation and undertake to utilize fully and well the materials I have collected and will recycle my surplus for the pleasure and benefit of others.
- I will support the rockhound project H.E.L.P. (Help Eliminate Litter Please) and will leave all collecting areas devoid of litter, regardless of how found.
- I will cooperate with field-trip leaders and those in designated authority in all collecting areas.
- I will report to my club or federation officers, Bureau of Land Management or other authorities, any deposit of petrified wood or other materials on public lands which should be protected for the enjoyment of future generations for public educational and scientific purposes.
- I will appreciate and protect our heritage of natural resources.
- I will observe the "Golden Rule", will use Good Outdoor Manners and will at all times conduct myself in a manner which will add to the stature and Public Image of Rockhounds everywhere.

ALEXANDRITE DID YOU KNOW? When chromium oxide replaces some aluminum in alexandrite, the stone's famous and beloved color change is possible. In addition to the characteristic green-to-red color change (from daylight to incandescent light), some alexandrite can change from yellowish or pink to raspberry red. In addition to the color change that alexandrite is known for, not many gem enthusiasts know that alexandrite can also exhibit the phenomenon of chatoyancy or the "cat's-eye effect." While cat's-eye chrysoberyl is well known and highly sought after, the gem variety alexandrite itself can also exhibit a cat's-eye effect when cut en cabochon. When the term "cat's-eye" is used alone, it refers only to chatoyant chrysoberyl, not chatoyant alexandrite or any other cat's-eye gemstone.

THE MINUTES OF MAY 7, GENERAL MEETING

WULFENITE

Meeting called to order at 7:35 p.m., Adrian Ruiz, presiding. Pledge of Allegiance led by Bob Driskell.

1st VP, Programs: Tonight's program, "Meteorites, Gifts or Curses?", with Mike Havstad (Conejo Club); June program, TBA; July program, Potluck and Member Silent Auction.

2nd VP, Show: Plans are coming along, some posters are out in Orange County (thanks, Jo!).

3rd VP, Field Trips: Adrian Ruiz going to Himalaya Mine, May 15th – 19th. Day trip is \$75, 5 hours. Carolyn Howe is leading Lavic Siding trip in October.

Treasurer: We are solvent.

Membership Secretary: We have 40 paid members.

Corresponding Secretary: Nothing to report.

Federation: May 30 - June 1, CFMS show in Pomona Fairplex, hosted by Pasadena Club. Volunteers needed, and applications for case entries are available. Check Rock Bag for more information.

Classes: Jean and Carolyn met with Greg Barnes of Recs and Parks, went over Memorandum of Understanding (MOU) with City of Oxnard. Gives club access without financial responsibility. CFMS insurance must be provided; club needs an Insurance Officer to represent us, and Carolyn Howe has volunteered to do it. All instructors need to submit a LiveScan fingerprint card, which City will pay for. City has asked for a 40% cut of proceeds; OGMS to handle registration as before.

Library: Out for perusal; Lee has reviewed book/DVD for Rock Bag.

Hospitality/Ways & Means: Nineteen members signed in, and two guests. Guests to receive gifts.

Pebble Pups: Ten Pebble Pups attended today, class was on birthstones.

Scholarships: Oxnard College submitted one candidate, CSUCI submitted five candidates.

Displays & Exhibits: Will be displaying at CFMS and other local shows, museums, libraries.

June Refreshments: Laura Driskell, Manuel Lopez.

Announcements: June 4th, next General Meeting. Show meeting, June 11th, 7pm. Board Mtg, 7:30pm. Museum of Ventura County display, "Diamonds Are Forever", through August. Santa Paula Oil Museum displaying "Dinosaur Eggs". Wire wrap classes by Kay Hara continue through end of May, at various locations.

Brief refreshment break, then, presentation of "Meteorites: Gifts or Curses?", by Mike Havstad. Thank You!

Meeting adjourned at 9:30 p.m., by Adrian Ruiz.

Respectfully submitted, May 27, 2014
Laura Driskell, Recording Secretary

THE MINUTES OF MAY 14, BOARD MEETING

GARNET

Meeting called to order 7:34 pm, Adrian Ruiz, presiding.

Motion by Miriam Tetreault, to approve March Board Meeting minutes, as printed in the Rock Bag was seconded, approved.

Treasurer's Report

by Acting Treasurer Miriam Tetreault,

including bills received, deposits made. Motion by Kay Hara to approve bills for payment; accept treasurer's report, was seconded, approved.

1st VP, Programs: Kay Hara reports: June, John Cook on Calistoga Petrified Wood; July, Summer Potluck and Member Silent Auction; August, Janie Duncan, the "Bead Lady".

2nd VP, Show: Show meeting in June and September. We will have a General Member Show meeting in October for the November show.

3rd VP, Field Trips: Adrian leading a trip to Himalaya this weekend. Carolyn leading a trip to Lavic Siding in October.

Corresponding Sec: Nothing new.

Membership: Carolyn Howe reports that Aswell Trophy would give us a break on the price of badges if we order 12 at a time. We have 42 paid members at this time.

Federation: Louisa Carey reports that CFMS show is coming up May 30 through June 1, 2014 at Pomona Fairplex, hosted by Pasadena Lapidary Society. Package for room is \$139, at the show. Miriam Tetreault moves to give Louisa a check for \$250 to cover expenses for trips to 2014 CFMS meetings. Seconded by Jean pSmith, motion approved. We should keep our fingers crossed for Brian to win Newsletter of the Year. Brett Johnson will be submitting a club case and personal case.

Classes: Classroom inventory was done; insurance certificate to be requested. Durley will need to be cleaned up before moving in, and Jean thinks a dumpster will be helpful to get trash out. Carolyn will get the insurance certificates going this week.

Scholarships: One nomination received for Oxnard College Geology major, and five nominations from CSUCI. Decisions due ASAP.

Pebble Pups: Working on the Folklore badge, will be sending info to newsletter.

New business: Fabric here for anyone who makes kids rock bags for show.

Adrian Ruiz adjourned meeting, 8:39 pm.

Respectfully submitted, May 14, 2014
Laura Driskell, Recording Secretary

DIOPTASE

Show Update

To let the membership know of the progress for our November show is as follows:

- All contracts out, 5 dealers are signed up.
- Demonstrators are in the progress of being signed up.
- Friday evening dinner will be the delicious spaghetti again.
- Donation tickets will now be generic so remainder can be used next year.
- Exhibitor forms are being distributed.
- Games need members to sew grab bags, see Lee or Louisa.
- City contract completed.
- Show insurance in progress.
- Publicity poster completed.
- Plants need members to start planting and tending.
- Food truck reserved during show.

*****Show meeting June 11 for all interested, prior to the Board meeting*****

Miriam Tetreault, Show Chair

THE P R E Z S E Z . . .

Greetings OGMS & new members,

We have a great program lined up for June's general meeting. I want you all to give warm welcome to our own OGMS Member John Cook. He will be presenting known facts about the Petrified Forest up in Calistoga California. Thank you John Cook for putting this all together. Newcomers always are welcome!

Adrian Ruiz, President

OGMS JUNE 4TH PROGRAM

Geologist John Cook will be presenting a program about "The Petrified Forest of Calistoga, California."

Just two miles outside the City of Calistoga California, lies a well preserved petrified forest of Coastal Redwood trees. About 3.4 million years ago Mount St. Helena, then active, erupted and blasted down and buried a mature Redwood forest. The petrified trees logs have

diameters of 12 or more feet and are well over 100' long. Petrified logs are lying on the ground everywhere, as found over 150 years ago.

The presentation will show modern Redwood trees living today and compared them to fossil trees of the past.

The presentation is about 35 minutes long and I will bring a specimen of the petrified redwood tree from the park and my own slide projector. All I need is a table and screen for my PowerPoint presentation and a good audience.

See Ya Then
-John Cook

PEBBLE PUPS

Calling all Pebble Pups! We are continuing to look into Gemstone Lore & Legends.

Why are diamonds forever?

Why do some think opals are bad luck to wear unless they were given as a gift?

Gemstones have been passed down for Generations and so too have their stories.

Come hear the history of the ages told by gems.

The meeting will be held in the Thousand Oaks room of the Oxnard Performing Arts Convention Center (800 Hobson Way, Oxnard) the first Wednesday of the month at 6:00pm

Rocks ROCK!

BENCH TIPS FOR JEWELRY MAKING BY: BRAD SMITH

SAWING JUMP RINGS

The difficult part of making jump rings for me has always been holding the coil while cutting off the individual rings. I use a saw to get the best fit when closing the rings later. I've seen all sorts of suggestions for ways to hold the coil, but the one that works best for me is this little jig made from scrap wood.

It's about 2 inches wide and 4-5 inches long with a groove cut down its length to cradle the coil of wire and a thin stop attached to the front end.

To cut the rings, thread your saw blade through the coil, hold the coil down in the groove and against the front stop, and saw at about a 40 degree angle.

Don't forget to use some wax or cutting lube. It really does make a difference. If you don't believe me, do an experiment while you're cutting a mess of rings. Count how many rings you cut before breaking a blade, first without lube and then with some every 6-8 rings.

SAVE WHEN BUYING SILVER

Silver products like sheet, wire, and casting shot are sold by the Troy ounce at what is called the spot price. That's what companies pay for the pure metal on the commodities market, and the spot price changes daily.

But in addition to the spot price, there is also a cost to fabricate the metal into wire or sheet, so the price of the item you buy is the cost of the metal plus the cost to make it. Different products have different fabrication charges because each takes a different amount of labor. Also, different companies will have different fabrication charges

because of local labor rates and their desired profit margin.

You can save money by finding a company with a lower fabrication charge. Also, note that the fabrication charge per ounce is less on larger orders, so you can save more by buying more. Find a friend to place a joint order and split the shipping charges.

But for casting purposes, there's an even better way to save. Buy your silver at a coin store. They sell bars and rounds in pure and Sterling for the spot price plus about a dollar per ounce.

The local coin shop adds only a small profit over the spot price. Further, they often waive the sales tax on a cash buy. So I save about \$3 per ounce, pay no tax, no shipping charges, and support a local business.

Get all 101 of Brad's bench tips in "Bench Tips for Jewelry Making" on Amazon® <http://amazon.com/dp/0988285800/>

Hello OGMS,

Please remember the following rules when checking out a book:

1. You must be a current member with your dues paid, hopefully an active member.
 2. Up to three books can be checked out at one time.
 3. Books can be checked out for one month at a time you check them out at a meeting and bring them back the next following meeting. If you wish an extension, please arrange with the librarian.
 4. Books must be brought back in good shape; any damage must be reported. If a book is lost, please make every effort to replace it or pay for it. Some books are very valuable.
 5. If books are overdue a week, you will be called and reminded to return them ASAP.
 6. Any book(s) you have that are relevant to our hobby and are fairly current, in good condition that you wish to donate to the library, it would be greatly appreciated.
-

The Magic of Minerals *Olaf Medenbach - Harry Wilk*

Our Knowledge of the minerals of the earth's crust is limited to the zone just beneath or at the earth's surface. Quarries, gravel pits, road cuts and tunnels let us see the mineralogical components of the hard rock commonly covered by soil or humus.

Mineralogy in its earliest days was limited to the Kingdom of the minerals. The term mineral derives from the Latin—minare— meaning mining, and —mina— the shaft. Therefore, mineral became the term for the material recovered from mines or shafts.

Mineralogy is closely allied with the other natural sciences of geology, chemistry, and physics. A modern mineralogist cannot function without the research methods of these other sciences.

Check out a book at the next meeting.....there is something for everyone.

Lee Leighton, Librarian

UPCOMING FIELD TRIPS, EVENTS & SHOWS

Field Trip: Rincon Hill Pleistocene Shell Fossils

When: Saturday June 7th Meet at 9:30 The red star is location.

Directions: Take 101 N towards Santa Barbara, Exit the offramp Rincon Rd Highway 150. Destination is to the right.

What You will Need: Bucket or collecting bags, gardening tools, sieve for tiny material and plenty of H2O.

For more Info go to: <http://whoscoming.com/vgms/RinconHill614.html?trig=new>

Field Trip: Palos Verdes Minerals

Find golden Barite, Selenite, Dogtooth dolomite and Glaucophane.

When: Saturday July 12 at 9:30 at the parking area on Paseo del Mar. (Marked A)

Directions will be posted later on

You will need: Bucket or collecting bags, hammer and plenty of water.

For more Info go to: <http://whoscoming.com/vgms/PalosVerdes714.html?trig=new>

---	---

Please Note: Sign In will be Sunday, August 24th and Sunday, August 31st, 2014 at 1:00 PM

CAMP PARADISE is approximately 50 miles east of Marysville on Highway E-21 (Marysville Rd. towards Brownsville). Elevation is approx. 3,500 ft. The facilities are at a rustic church camp, rooms with double beds (for couples) and/or bunk beds. Bathrooms and showers are communal and located in each building. Housekeeping is the responsibility of each guest. Also available, on a limited basis, are cabins for 4 or more persons (bathrooms and showers are located nearby). RV space with electricity and water for most spaces is available. **Since it is a church camp, no alcoholic beverages are permitted. Room assignments will be made by staff.**

CLASSES - Beginning Faceting, Ming Trees, Lapidary, Soft Stone Carving, Silversmithing, Lost Wax Casting, Beginning through Advanced Wire Art, Copper Enameling, Lampwork Bead Making, Bead Weaving, PMC3 Clay and Dichroic Glass.

Please Note: There will be some classes with limited space - **Preference will be given to first time students.**
***** **CHANGES MAY BE MADE AS NECESSARY** *****

A list of supplies will be sent to you with your confirmation. Please e-mail me after 30 days if you have not received information.

PLEASE CUT ALONG DOTTED LINE & KEEP THE TOP PORTION FOR FUTURE REFERENCE
